

Ohio Revised Code

Section 1522.121 Submission for withdrawing ground water.

Effective: October 17, 2019

Legislation: House Bill 166 - 133rd General Assembly

Along with an application for a permit submitted under section 1522.12 of the Revised Code, an applicant that proposes to withdraw ground water shall submit data in a form prescribed by the chief of the division of water resources that includes all of the following:

- (A) A hydrologic map consisting of a single map using the most recent USGS 7.5 minute topographic maps at a scale of 1:24,000 as a base or other approved format that shows all of the information described in section 1521.122 of the Revised Code;
 - (B) A hydrogeologic description in sufficient detail to determine the cone of depression for the proposed withdrawal that includes all of the information described in section 1522.123 of the Revised Code;
 - (C) A steady state ground water model that defines the projected cone of depression for the proposed withdrawal that complies with section 1522.124 of the Revised Code;
 - (D) Alternative water supply information that includes an analysis of the availability and suitability of alternative water supply sources that will be utilized to fulfill the water supply replacement provisions of section 1522.24 of the Revised Code.
-
