

Ohio Revised Code

Section 3701.141 Office of women's health initiatives.

Effective: June 26, 2003

Legislation: House Bill 95 - 125th General Assembly

(A) There is hereby created in the department of health the women's health program,.

(B) To the extent funds are available, the women's health program shall:

- (1) Identify, review, and assist the director in the coordination of programs and resources the department of health is committing to women's health concerns, including the department's women's and infants' program activities;
 - (2) Advocate for women's health by requesting that the department conduct, sponsor, encourage, or fund research; establish additional programs regarding women's health concerns as needed; and monitor the research and program efforts;
 - (3) Collect, classify, and store relevant research conducted by the department or other entities, and provide, unless otherwise prohibited by law, interested persons access to research results;
 - (4) Apply for grant opportunities.
-
