

Ohio Revised Code

Section 3701.48 Laboratory report.

Effective: December 19, 1973

Legislation: Senate Bill 209 - 110th General Assembly

The approved laboratory making the standard tests for syphilis and gonorrhea shall make a report to the physician or health commissioner submitting the specimens. Such laboratory shall forthwith report any reactive syphilis test or positive gonorrhea test to the department of health on forms prescribed and furnished by the director of health.
