

Ohio Revised Code

Section 3702.76 Health resource shortage areas.

Effective: March 23, 2015

Legislation: House Bill 320 - 130th General Assembly

(A) The director of health shall designate, as health resource shortage areas, areas in this state that experience special health problems and physician practice patterns that limit access to medical care. Except as provided in division (B) of this section, the designations shall be made by rule. The designations may apply to a geographic area, one or more facilities within a particular area, or a population group within a particular area. The director shall consider for designation as a health resource shortage area, any area in this state that has been designated by the United States secretary of health and human services as a health manpower shortage area under Title III of the "Public Health Service Act," 58 Stat. 682 (1944), 42 U.S.C.A. 201, as amended.

(B) As used in this division, "free clinic" has the same meaning as in section 3701.071 of the Revised Code.

The director shall designate each free clinic as a health resource shortage area, regardless of whether the clinic is located in a geographic area that is designated as a health resource shortage area.
