(A) Whenever the division of industrial compliance within the department of commerce determines that an emergency exists due to disaster, act of God, or work stoppage, and the number of individuals in the state holding elevator mechanic's licenses issued by the division is insufficient to cope with the emergency, the division shall declare such a state of emergency and respond as prescribed in this section to assure the safety of the public.

(B) Notwithstanding section 4785.03 of the Revised Code, during such a state of emergency, any individual found by a licensed elevator contractor to have an acceptable combination of documented experience and education to perform conveyance services without direct and immediate supervision may perform conveyance services without an elevator mechanic's license, as provided in this section.
