

Ohio Revised Code Section 4953.14 Powers.

Effective: October 1, 1953

Legislation: House Bill 1 - 100th General Assembly

A union electric interurban terminal and depot company may receive grants from the legislative authority of a municipal corporation for the use of its streets or alleys upon the same terms as street railways, which grant shall continue as long as the grants, and renewals and relettings of such grants, continue to any interurban railroad or street railway connecting with such company's depot or tracks. It may construct, maintain, and operate railway lines upon the streets or alleys of a municipal corporation to connect its depot with other street railways or interurban railroads, and may build, keep, maintain, and operate union electric interurban terminals and depots for electric cars and trains. Such company may contract for the use of its tracks for the operation of the cars of any interurban railroad or street or other electric railway company and for furnishing them terminal depot facilities. Any interurban railroad or street or other electric railway company may contract with such union electric interurban terminal and depot company for the use of its tracks and for terminal depot facilities.
