

Ohio Revised Code

Section 5164.471 Summary data regarding perinatal services.

Effective: April 6, 2017

Legislation: Senate Bill 332 - 131st General Assembly

Not less than once each year and in accordance with all state and federal laws governing the confidentiality of patient-identifying information, the department of medicaid shall make summary data regarding perinatal services available on request to local organizations concerned with infant mortality reduction initiatives and recipients of grants administered by the division of family and community health services in the department of health.
