(2) Amounts are payable under division (D) of this section for fixed-sum levy losses only to the extent of such losses for qualifying levies that remain in effect for the current tax year. For this purpose, a qualifying levy levied under section 5705.194 or 5705.213 of the Revised Code remains in effect for the current tax year only if a tax levied under either of those sections is charged and payable for the current tax year for an annual sum at least equal to the annual sum levied by the board of education for tax year 2004 under those sections less the amount of the payment under this division.

No payment shall be made for qualifying levies that are no longer charged and payable.

(2) Beginning in 2016, by the thirty-first day of January of each year, the tax commissioner shall review the calculation of fixed-sum levy loss for debt purposes determined under division (E) of

section 5751.20 and division (H) of section 5727.84 of the Revised Code as in effect before July 1, 2015. If the commissioner determines that a fixed-sum levy that had been scheduled to be reimbursed in the current year is no longer charged and payable, a revised calculation for that year and all subsequent years shall be made.

(F)(1) For taxes levied within the ten-mill limitation for debt purposes in tax year 1998 in the case of electric company tax value losses, and in tax year 1999 in the case of natural gas company tax value losses, payments shall be made to school districts and joint vocational school districts equal to one hundred per cent of the loss computed under division (D) of section 5727.85 of the Revised Code as in effect before July 1, 2015, as if the tax were a fixed-rate levy, but those payments shall extend through fiscal year 2016.

(2) For taxes levied within the ten-mill limitation for debt purposes in tax year 2005, payments shall be made to school districts and joint vocational school districts equal to one hundred per cent of the loss computed under division (D) of section 5751.21 of the Revised Code as in effect before July 1, 2015, as if the tax were a fixed-rate levy, but those payments shall extend through fiscal year 2018.

(G) If all the territory of a school district or joint vocational school district is merged with another district, or if a part of the territory of a school district or joint vocational school district is transferred to an existing or newly created district, the department of education and workforce, in consultation with the tax commissioner, shall adjust the payments made under this section as follows:

(1) For a merger of two or more districts, fixed-sum levy losses, total resources, current expense allocation, and non-current expense allocation of the successor district shall be the sum of such items for each of the districts involved in the merger.

(2) If property is transferred from one district to a previously existing district, the amount of the total resources, current expense allocation, and non-current expense allocation that shall be transferred to the recipient district shall be an amount equal to the total resources, current expense allocation, and non-current expense allocation of the transferor district times a fraction, the numerator of which is the number of pupils being transferred to the recipient district, measured, in the case of a school district, by formula ADM as defined in section 3317.02 of the Revised Code or, in the case of a joint vocational school district, by formula ADM as defined for a joint vocational school district in that

section, and the denominator of which is the formula ADM of the transferor district.

(3) After December 31, 2010, if property is transferred from one or more districts to a district that is newly created out of the transferred property, the newly created district shall be deemed not to have any total resources, current expense allocation, total allocation, or non-current expense allocation.

(4) If the recipient district under division (G)(2) of this section or the newly created district under division (G)(3) of this section is assuming debt from one or more of the districts from which the property was transferred and any of the districts losing the property had fixed-sum levy losses, the department of education and workforce, in consultation with the tax commissioner, shall make an equitable division of the reimbursements for those losses.

(H) The payments required by divisions (C), (D), (E), (F), and (I) of this section shall be distributed periodically to each school and joint vocational school district by the department of education and workforce unless otherwise provided for. Except as provided in division (D) of this section, if a levy that is a qualifying levy is not charged and payable in any year after 2014, payments to the school district or joint vocational school district shall be reduced to the extent that the payments distributed in fiscal year 2015 were attributable to the levy loss of that levy.

(I) For fiscal years 2022 through 2026, if the total amount to be received under divisions (C) and (E) of this section by any school district that has a nuclear power plant located within its territory is less than the amount the district received under this section in fiscal year 2017, the district shall receive a supplemental payment equal to the difference between the amount to be received under those divisions for the fiscal year and the amount received under this section in fiscal year 2017.
