

Ohio Revised Code

Section 6121.08 Securing bonds or notes by trust agreement.

Effective: March 7, 1968

Legislation: House Bill 998 - 107th General Assembly

In the discretion of the Ohio water development authority any water development revenue bonds or notes or water development revenue refunding bonds issued under Chapter 6121. of the Revised Code, may be secured by a trust agreement between the authority and a corporate trustee, which trustee may be any trust company or bank having the powers of a trust company within or without the state.

Any such trust agreement may pledge or assign revenues of the authority to be received, but shall not convey or mortgage any water development project or any part thereof. Any such trust agreement or any resolution providing for the issuance of such bonds or notes may contain such provisions for protecting and enforcing the rights and remedies of the bondholders or noteholders as are reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property, the construction, improvement, maintenance, repair, operation, and insurance of the water development project or projects in connection with which such bonds or notes are authorized, the rentals or other charges to be imposed for the use or services of any water development project, the custody, safeguarding, and application of all moneys, and provisions for the employment of consulting engineers in connection with the construction or operation of such water development project or projects. Any bank or trust company incorporated under the laws of this state which may act as depository of the proceeds of bonds or notes or of revenues may furnish such indemnifying bonds or may pledge such securities as are required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and noteholders and of the trustee, and may restrict the individual right of action by bondholders and noteholders as is customary in trust agreements or trust indentures securing similar bonds. Such trust agreement may contain such other provisions as the authority deems reasonable and proper for the security of the bondholders or noteholders. All expenses incurred in carrying out the provisions of any such trust agreement may be treated as a part of the cost of the operation of the water development project or projects. Any such trust agreement or resolution authorizing the issuance of water development revenue bonds may provide the method whereby the general administrative overhead expenses of the authority shall be allocated among the several projects acquired or constructed by it as a factor of the
