Rule 111:3-9-13 Re-examination; updated manual.

Effective: January 25, 2016

(A) Upon receipt of an updated manual for equipment certified by the secretary of state and after the vote of a majority of the members, the board of voting machine examiners may require the vendor to submit the equipment to an examination and test in order for the equipment to remain certified.

(B) The board of voting machine examiners shall provide vendor with a written notice of re-examination along with a date by which the equipment must be submitted for re-examination.

(C) The board of voting machine examiners may withdraw certification if the vendor fails to submit the equipment for re-examination within the time set forth by the board.
