

Ohio Administrative Code

Rule 123:1-9-02 Subjects, weights, and pass point.

Effective: August 5, 2024

The director of administrative services or designee will prescribe the subjects of each examination and the relative weights to be attached thereto, provided that any such determination will be adopted prior to the date of publication of the examination announcement. Reasonable accommodations may be made for the testing of applicants with disabilities in accordance with any applicable state and/or federal law and state policy.

The director or designee will determine a passing point for each examination based on factors such as, but not limited to, the difficulty of that examination, number of applicants, and other relevant data. When a passing point is determined, it will be made a matter of permanent record. The director or designee will establish a qualifying grade for any or all parts of an examination, provided notice of such qualifying grade is given in the general instructions accompanying the examination. The director or designee will prescribe that all examinations will be in compliance with federal selection guidelines and professional standards.
