

## Ohio Administrative Code Rule 1501:46-3-11 Geological features.

Effective: June 30, 2024

---

It is unlawful to destroy, disturb, deface, mutilate, or remove earth, sand, gravel, shoreline of a lake, oil, minerals, stone, rocks, ice, or features of caves in any area administered by the division, except in specific areas when authorization by the chief to collect fossils or other geological materials is posted at the headquarters of the area to which the authorization applies or except where the chief has designated a nature study area.
