

Ohio Administrative Code Rule 164-1-36 Engineering costs.

Effective: February 15, 2024

Eligible project costs for engineering services will be reviewed by the commission and evaluated according to typical engineering expenses as determined by the director. The project agreement shall specify the amount of approved engineering expenses for all phases of design and inspection, with each delineated separately. Any engineering cost more than the amount approved in the project agreement shall be the responsibility of the applicant.
