

## Ohio Administrative Code

### Rule 164-2-16 Project agreement; scope changes.

Effective: February 15, 2024

---

A project agreement based upon an application for grants submitted under sections 164.20 to 164.27 of the Revised Code shall be signed and returned within forty-five days of the date it was issued by the commission. If the project agreement is not signed and returned to the commission within forty-five days, the director may rescind the offer to fund the project. An executed project agreement must be received by the commission prior to the disbursement of funds. Any change in the scope of the project set forth in the project agreement shall require an amendment, which must be approved by the natural resources assistance council. Applications submitted to a NRAC for which there is an existing active project agreement for the same scope or portion of the same scope are not eligible for funding and shall be rejected.
