

Ohio Administrative Code

Rule 3318:1-6-02 Assistance for districts that have entered into a vocational facilities assistance expedited local partnership agreement.

Effective: April 30, 2015

In any fiscal year, the Ohio school facilities commission may, at its discretion, provide assistance under sections 3318.40 to 3318.45 of the Revised Code to a school district that has entered into an expedited local partnership agreement under section 3318.46 of the Revised Code before the district is otherwise eligible for that assistance based on its percentile rank, if the commission determines all of the following:

(A) The district has made an expenditure of local resources under its expedited local partnership agreement on a discrete part of its district-wide project.

(B) The district is ready to fund its complete district-wide project. To be considered funding ready, a district must have an established credit and its full local share required for the completion of the co-funded project and is able to satisfy the maintenance fund requirement in section 3318.43 of the Revised Code without the approval of a further ballot issue.

(C) Sufficient state funds have been appropriated for classroom facilities projects for the fiscal year to pay the state share of the district's project after paying the state share of projects for all of the following:

(1) Districts that previously had their conditional approval lapse pursuant to section 3318.05 of the Revised Code;

(2) Districts eligible for assistance under division (B)(2) of section 3318.04 of the Revised Code;

(3) Districts participating in the exceptional needs school facilities assistance program under section 3318.37 or 3318.371 of the Revised Code;

(4) Districts participating in the accelerated urban school building assistance program under section 3318.38 of the Revised Code.

Assistance under this section shall be offered to eligible districts in the order of their percentile rankings at the time they entered into their expedited local partnership agreements, from lowest to highest percentile. In the event that more than one district has the same percentile ranking, those districts shall be offered assistance in the order of the date they entered into their expedited local partnership agreements, from earliest to latest date.
