

Ohio Administrative Code

Rule 3341-3-54 Satisfactory academic progress and financial aid- undergraduate.

Effective: [March 24, 2015](#)

(A) Policy statement and purpose

Satisfactory academic progress to be eligible for federal student aid funds, a student must make satisfactory academic progress in both qualitative and quantitative criteria.

(B) Policy

Financial aid academic progress is assessed according to qualitative, quantitative and maximum time frame measures that are described within this policy. All measures must be met for continued aid eligibility. Students failing to meet any single measure of satisfactory academic policy may request re-consideration through an appeal process. This policy assesses all students equally regardless of enrollment status hours. SFA will evaluate SAP annually, place students on probation who are not meeting any one or more of the standard measures for assessment, and require students to fulfill the terms of an academic plan to qualify for further funds.

(1) Satisfactory academic progress requires financial aid recipients to do the following:

- (a) Be admitted into a degree/certificate seeking program.
- (b) Meet minimum cumulative grade point averages.
- (c) Satisfactorily complete at least sixty-seven per cent of cumulative credit hours attempted.
- (d) Complete the degree/certificate program within the maximum attempted hours.

- (k) State scholarship and grant programs (example: Ohio college opportunity grant)

When it is determined a student has failed to meet any one or more measures of SAP, the students financial aid eligibility will be suspended. Appeals must be submitted by the following dates to be considered for eligibility for that semester:

- (i) Summer July first

(iii) Spring March first

SFA has the final authority to determine if financial aid will be extended or denied to a student.
Decisions made by an SFA counselor or the SFA committee are conclusive and cannot be appealed.
