

Ohio Administrative Code Rule 3341-6-25 Garnishment of wages.

Effective: [March 17, 2015](#)

(A) Policy statement and purpose

Bowling Green state university will comply with wage garnishment orders issued by court order or other legal or equitable procedure (e.g., internal revenue service (IRS) or state tax collection).

(B) Policy

The policy on the garnishment of wages applies to all employees, faculty, administrative and classified staff. While the manner in which employees use their wages is, of course, a private matter, the courts have the authority to force the university to hold back a portion of an employees wages to pay a debt if a creditor has not been able to collect that which is owed. When this is court-ordered, the procedure is called garnishment.

Additional information on the garnishment of wages policy may be found in the classified staff handbook. There is no information on this policy in the administrative staff handbook or the charters faculty handbook although the policy applies to both groups of employees.
