

Ohio Administrative Code

Rule 3349-10-45 Rule governing phones in laboratories.

Effective: July 29, 2024

(A) Purpose

To establish formal guidelines for the minimum number of phones that must be present in all research laboratories to ensure safety and minimize risk to the university.

(B) Scope

Applies to all research laboratories of the university community.

(C) Definitions

(1) "Research laboratory" refers to any formal space designated for research in buildings c, d, e or f or any new construction so designated.

(2) "Suite laboratory" refers to a research laboratory that is a combination of at least 3 open contiguous laboratory spaces.

(D) Policy statement

(1) All research laboratories shall have a minimum of one phone that can access at least outside emergency services, NEOMED security and the NEOMED safety administrator at all times.

(2) All suite laboratories shall have a minimum of two phones that can access at least outside emergency services, NEOMED security and the NEOMED safety administrator at all times.

(3) Whether or not the phones have the ability to make long distance calls shall be at the discretion of the supervisor or cost center supervisor.
