

## Ohio Administrative Code Rule 3701-22-13 Data collection.

Effective: September 14, 2024

---

After consultation with representatives of the regulated industry, the director may require hospitals to submit data in areas including performance, quality, or other agreed upon areas.

(A) Any information reported under this section that reveals the identity or that could be used to lead to the identity of any individual is considered protected health information in accordance with 3701.17 of the Revised Code. Information that does not identify nor lead to the identity of an individual may be released in summary, statistical or aggregate form.

(B) A third-party organization may report as described in this division on behalf of the hospital.
