

Ohio Administrative Code

Rule 3701-3-08 Release of patient's medical records.

Effective: July 1, 2014

Any person, hospital, clinic, agency or other institution or facility providing care or treatment to an individual suffering from a communicable disease which is required to be reported under Chapter 3701. of the Revised Code and the rules adopted by the director of health, or a disease that the director requires special inquiry be made under sections 3701.13 and 3701.14 of the Revised Code, shall, upon written request by the director provide access to the patient's medical record to the director during an investigation of such disease.
