

## Ohio Administrative Code

### Rule 3701-84-21 Utilization levels - solid organ transplant services.

Effective: May 15, 2023

---

(A) Each solid organ transplant service designated as an adult or combined adult/ pediatric transplant service performing surgeries in a single hospital or university multi-hospital transplant service, should achieve volume goals consistent with Title 42 CFR 482.80 and 482.82 to ensure efficiency and a minimum floor of competency:

(B) Volume goals may be considered by the director in conjunction with other indicators of quality, not as the sole indicator of service performance.

(C) The following solid organ transplant services are not subject to volume goals:

(1) Heart-lung;

(2) Intestinal;

(3) Pancreas; and

(4) Pediatric.
