

Ohio Administrative Code

Rule 3701-84-85 Quality assessment and performance improvement - pediatric cardiovascular surgery service.

Effective: May 15, 2023

In addition to the general quality assessment and performance improvement requirements set forth in rule 3701-84-12 of the Administrative Code, each pediatric cardiovascular surgery service will:

(A) As part of the service's overall quality assessment and performance improvement process:

- (1) Utilize the quality performance measures outcomes data obtained from the service's participation in the service's chosen data registry; and
- (2) Include a periodic review and evaluation of the multidisciplinary meetings required by paragraph (D) of rule 3701-84-81 of the Administrative Code.

(B) Have a regular formal morbidity and mortality conference chaired by the medical director of the pediatric cardiovascular surgery service or the medical director's designee. The morbidity and mortality conferences will:

- (1) Be held at a minimum, once a month or more frequently depending on the need; and
 - (2) Review all deaths and complications such as reoperation for bleeding, deep sternal wound infection, stroke, perioperative myocardial infarction, and any patterns that might indicate a problem will be investigated and remedied if necessary.
-
