

## Ohio Administrative Code Rule 3701-86-02 Registration of installers.

Effective: February 1, 2024

---

(A) Only the following individuals may register with the Ohio department of health to perform the installation of the access portal door and alarm system components of a newborn safety incubator:

(1) Access portal door installers will be a county or city licensed general contractor. The licensed general contractor maintains ultimate responsibility for all work performed in the process of the construction of the access portal door by employees and subcontractors.

(2) Access portal door alarm system installers will be:

(a) A licensed electrical contractor; or

(b) A telecommunications installation professional.

(B) Prior to engaging in the installation of newborn safety incubator access portal door or alarm system, the individuals authorized in paragraph (A) of this rule, will register with the department of health. A complete registration includes:

(1) A completed "Newborn Safety Incubator - Installer" registration form obtained from the Ohio department of health;

(2) Documentation of occupational license as a general contractor, electrical contractor, or of employment as a telecommunications installation professional; and

(3) A nonrefundable registration fee of two hundred fifty dollars made payable to the "Treasurer, State of Ohio."

(C) A list of registered installers will be published to the Ohio department of health website.

(D) Registered installers may voluntarily terminate their registration and have their information removed from the list of registered installers by providing written notice to the Ohio department of health.

(E) Any individual who has voluntarily terminated their registration as an installer will be required to complete another registration with the Ohio department of health in accordance with paragraph (B) of this rule prior to recommencing any action associated with the installation of a newborn safety incubator access portal or alarm system.
