

## Ohio Administrative Code

### Rule 3701:1-40-23 Requirements for the issuance of a type A specific license of broad scope.

Effective: October 4, 2010

---

The director shall approve an application for a type A specific license of broad scope provided that the applicant:

- (A) Satisfies the general requirements specified in rules 3701:1-38-02 and 3701:1-40-15 of the Administrative Code;
- (B) Has engaged in a reasonable number of activities involving the use of radioactive material; and
- (C) Has established administrative controls and provisions relating to organization and management, procedures, record keeping, material control, and accounting and management review that are necessary to assure safe operations, including:
  - (1) The establishment of a radiation safety committee composed of such persons as a radiation safety officer, a representative of management, and persons trained and experienced in the safe use of radioactive materials;
  - (2) The appointment of a radiation safety officer who is qualified by training and experience in radiation protection, and who is available for advice and assistance on radiological safety matters; and
  - (3) The establishment of appropriate administrative procedures to assure:
    - (a) Control of procurement and use of radioactive material;
    - (b) Completion of safety evaluations of proposed uses of radioactive material which take into consideration such matters as the adequacy of facilities and equipment, training and experience of the user, and the operating or handling procedures; and

(c) Review, approval, and recording by the radiation safety committee of safety evaluations of proposed uses prepared in accordance with paragraph (C)(3)(b) of this rule prior to use of the radioactive material.
