

## Ohio Administrative Code

### Rule 3701:1-40-25 Requirements for the issuance of a type C specific license of broad scope.

Effective: October 4, 2010

---

The director shall approve an application for a type C specific license of broad scope provided that the applicant:

(A) Satisfies the general requirements specified in rules 3701:1-38-02 and 3701:1-40-15 of the Administrative Code;

(B) The applicant submits a statement that radioactive material will be used only by, or under the direct supervision of, individuals who have received:

(1) A college degree from an accredited institution at the bachelor level, or equivalent training and experience, in the physical or biological sciences or in engineering; and

(2) At least forty hours of training and experience in the safe handling of radioactive materials, and in the characteristics of ionizing radiation, units of radiation dose and quantities, radiation detection instrumentation, and biological hazards of exposure to radiation appropriate to the type and forms of radioactive material to be used; and

(C) The applicant has established administrative controls and provisions relating to procurement of radioactive material, procedures, record keeping, material control and accounting, and management review necessary to assure safe operations.
