

Ohio Administrative Code Rule 3701:1-49-20 Personnel monitoring.

Effective: [May 23, 2022](#)

(A) The licensee may not permit an individual to act as a logging supervisor or logging assistant unless that person wears a personnel dosimeter at all times during the handling of licensed radioactive materials. Each personnel dosimeter must be assigned and worn by only one individual. Film badges must be replaced at least monthly and other personnel dosimeters that require replacement must be replaced at least quarterly. All personnel dosimeters must be evaluated at least quarterly or promptly after replacement, whichever is more frequent.

(B) The licensee shall provide bioassay services to individuals using licensed materials in subsurface tracer studies if required by the license.

(C) The licensee shall retain records of personnel dosimeters required by paragraph (A) of this rule and bioassay results for inspection until the director authorizes disposition of the records.
