

Ohio Administrative Code Rule 3704-1-02 Commission on minority health.

Effective: October 18, 2013

The commission on minority health shall facilitate health promotion and disease prevention among minority groups by:

(A) Facilitating the development of innovative, culturally sensitive and specific educational materials and services for targeted, at-risk minority communities by providing grant funds to community-based health groups;

(B) Assuring the impact of grant dollars by limiting the scope of funding consideration to chronic diseases and conditions which can be ameliorated by health promotion and disease prevention activities; and

(C) Implementing the recommendations of the governors task force on Black and minority health.
