

Ohio Administrative Code

Rule 3717-1-07 Poisonous or toxic materials: labeling and identification.

Effective: June 19, 2023

(A) Original containers: identifying information.

Containers of poisonous or toxic materials and personal care items are to bear a legible manufacturer's label.

(B) Working containers - common name.

Working containers used for poisonous or toxic materials such as cleaners and sanitizers taken from bulk supplies are to be clearly and individually identified with the common name of the material.
