

## Ohio Administrative Code

### Rule 3745-267-904 Waiver from secondary containment requirements - containment buildings - standardized permitting.

Effective: [March 7, 2025](#)

---

Notwithstanding any other provision of rules 3745-267-900 to 3745-267-908 of the Administrative Code, the director may waive requirements for secondary containment for a permitted containment building where:

- (A) The owner or operator demonstrates that the only free liquids in the unit are limited amounts of dust suppression liquids required to meet occupational health and safety requirements; and
  - (B) Containment of managed wastes and dust suppression liquids can be assured without a secondary containment system.
-
