

## Ohio Administrative Code

Rule 3745-267-907 Conditions under which containment buildings may serve as secondary containment systems for tanks placed within the building - standardized permitting.

Effective: [March 7, 2025](#)

---

Under certain conditions, containment buildings may serve as secondary containment systems for tanks placed within the building.

(A) A containment building may serve as an external liner system for a tank, provided the containment building meets the requirements of paragraph (A) of rule 3745-267-196 of the Administrative Code.

(B) To be considered an acceptable secondary containment system for a tank, the containment building also shall meet the requirements of paragraphs (A), (B)(1), and (B)(2) of rule 3745-267-195 of the Administrative Code.
