

Ohio Administrative Code

Rule 3745-267-90 Releases from waste management units - standardized permitting.

Effective: March 7, 2025

(A) Compliance- releases from waste management units. This paragraph applies to owners or operators of facilities that treat or store hazardous waste under a standardized permit pursuant to rules 3745-50-250 to 3745-50-320 of the Administrative Code, except as provided in paragraph (A)(2) of rule 3745-267-01 of the Administrative Code, or unless the facility already has a permit that imposes requirements for corrective action under rule 3745-54-101 of the Administrative Code.

(B) Actions to address corrective action for waste management units.

(1) The owner or operator shall institute corrective action as necessary to protect human health and the environment for all releases of hazardous waste or constituents from any waste management unit at the facility, regardless of the time at which waste was placed in such unit.

(2) The director will specify corrective action in the supplemental portion of the standardized permit in accordance with paragraph (B) of this rule and rules 3745-57-70 to 3745-57-75 of the Administrative Code. The director will include in the supplemental portion of the standardized permit schedules of compliance for corrective action (where corrective action cannot be completed prior to the issuance of the permit) and assurances of financial responsibility for completing corrective action.

(3) The owner or operator shall implement corrective action beyond the facility property boundary, where necessary to protect human health and the environment, unless the owner or operator demonstrates to the satisfaction of the director that, despite best efforts, the owner or operator was unable to obtain the necessary permission to undertake such actions. The owner or operator is not relieved of all responsibility to clean-up a release that has migrated beyond the facility boundary where off-site access is denied. On-site measures to address such releases will be determined on a case-by-case basis. The owner or operator shall provide assurances of financial responsibility for such corrective action.

(4) Owners or operators of remediation waste sites are not required to comply with paragraph (B) of this rule unless the site is a part of a facility that is subject to a permit for treating, storing, or disposing of hazardous wastes that are not remediation wastes.
