(A) Applicability.

This rule applies to any major stationary source or major modification that is to be constructed in an area designated in 40 CFR 81.336 as attainment for an air pollutant for which the major stationary source or major modification is major.

(B) Any owner or operator of a proposed major stationary source or major modification shall provide an analysis of the impairment to visibility, soils and vegetation that would occur as a result of the stationary source or modification and general commercial, residential, industrial and other growth associated with the stationary source or modification. This analysis shall be submitted with the permit-to-install application.

(C) The owner or operator shall provide an analysis of the air quality impact projected for the attainment area as a result of general commercial, residential, industrial and other growth associated with the stationary source or modification.
