

Ohio Administrative Code

Rule 3745-34-05 Identification of underground sources of drinking water.

Effective: July 25, 1984

The director may identify (by narrative description, illustrations, maps, or other means) and shall protect, as an underground source of drinking water, all aquifers or parts of aquifers which meet the definition of an underground source of drinking water in rule 3745-34-01 of the Administrative Code. Even if an aquifer has not been specifically identified by the director, it is an underground source of drinking water if it meets the definition in rule 3745-34-01 of the Administrative Code.
