

Ohio Administrative Code

Rule 3745-513-470 Certification report for sampling, testing, or delineating the limits of waste placement.

Effective: January 1, 2020

A person who engaged in chapter 513 activities pursuant to rule 3745-513-400 of the Administrative Code shall submit a certification report to Ohio EPA not later than thirty days after completion of the sampling, testing, or delineating of the limits of waste placement activities. At a minimum, the certification report shall contain the following:

- (A) The locations where waste was encountered.
 - (B) A written explanation of how the material was handled after sampling was completed.
 - (C) Written confirmation that any excavation, borehole, or well has been backfilled or sealed in accordance with this rule and rules adopted under Chapters 3734. and 6111. of the Revised Code.
-
