

Ohio Administrative Code

Rule 3745-555-520 Building to enclose waste handling area.

Effective: April 1, 2017

Certification by the owner or operator of the construction of any buildings used to enclose any solid waste transfer facility waste handling areas shall include the following:

- (A) Record drawings depicting the location of the building, as constructed.

 - (B) Results of all testing and verification that the building meets the specifications in the authorizing document.
-
