

Ohio Administrative Code

Rule 3745-580-200 Establishment and modification of a scrap tire collection facility.

Effective: June 30, 2023

(A) Except as specified in rule 3745-580-205 of the Administrative Code, no person shall establish or modify a scrap tire collection facility without first obtaining a registration certificate.

(B) Concurrent to submitting an application for a registration certificate pursuant to rule 3745-580-201 of the Administrative Code, the applicant shall also do the following:

(1) For a new scrap tire collection facility, apply for a license in accordance with Chapter 3745-501 of the Administrative Code.

(2) Submit to the Ohio EPA division of air pollution control and the division of surface water a written notification of intent to establish or modify a scrap tire collection facility and a written request for information pertaining to any regulatory requirements under Chapter 3704. or 6111. of the Revised Code.

(3) Mail letters of intent to establish or modify a scrap tire collection facility including a description of the facility by certified mail or any other form of mail accompanied by a receipt to the following entities:

(a) The governments of the general purpose political subdivisions where the scrap tire collection facility is located including but not limited to county commissioners, the legislative authority of a municipal corporation, or the board of township trustees.

(b) The single or joint county solid waste management district or regional solid waste management authority where the scrap tire collection facility is located or that is served by the scrap tire collection facility.

(c) The owner or lessee of any easement or right of way bordering or within the proposed scrap tire collection facility boundaries which may be affected by the proposed scrap tire collection facility.

- (d) The local zoning authority having jurisdiction.

- (e) The local air agency having jurisdiction.

- (f) The park system administrator, if any part of the scrap tire collection facility is located within or shares the park boundary.

- (g) The conservancy district, if any part of the scrap tire collection facility is located within or shares the conservancy district boundary.

- (h) The fire department having responsibility for providing fire control services where the scrap tire collection facility is located.

- (i) The board of health.
