

Ohio Administrative Code

Rule 3745-67-29 Special requirements for ignitable or reactive waste.

Effective: December 7, 2000

Ignitable or reactive waste shall not be placed in a surface impoundment unless the waste and impoundment satisfy all applicable requirements of Chapter 3745-270 of the Administrative Code, and:

(A) The waste is treated, rendered, or mixed before or immediately after placement in the impoundment so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under rules 3745-51-21 and 3745-51-23 of the Administrative Code; and

(2) Paragraph (B) of rule 3745-65-17 of the Administrative Code is complied with; or

(1) The waste is managed in such a way that it is protected from any material or conditions which may cause it to ignite or react; and

(2) The owner or operator obtains a certification from a qualified chemist or engineer that, to the best of his knowledge and opinion, the design features or operating plans of the facility will prevent ignition or reaction; and

(3) The certification and the basis for it are maintained at the facility; or

(C) The surface impoundment is used solely for emergencies.
