### Rule 3770:1-9-55 Game rule number fifty-five.

Effective: April 28, 2016

---

(A) Title and term. Ohio lottery commission game rule number fifty-five, "KENO," shall be conducted at such times and for such periods as the commission may determine. For the purpose of this rule, "sales cycle" shall mean any such period beginning on the date when ticket sales are commenced and continuing through the date established by the director as the final sales date.

(B) General design.

(1) Game rule number fifty-five is a lottery game of the type generally known as a number match game.

(2) Each ticket in game rule number fifty-five shall be imprinted with one set of unique numbers from the set of integers one through eighty inclusive, as determined by the choice of the ticket purchaser or the auto pick feature of the on-line gaming computer system, and recorded on the ticket at the time of purchase. Each set of numbers shall consist of at least one unique number and not more than ten unique numbers as chosen by the ticket purchaser or the auto pick feature of the on-line gaming computer system. The number of unique numbers in each set of unique numbers is dependent upon the number of "spots" chosen by the ticket purchaser. If the ticket purchaser chooses a "one spot" ticket, the set of numbers will consist of one unique number. If the ticket purchaser chooses a "two spot" ticket, the set of numbers will consist of two unique numbers. If the ticket purchaser chooses a "three spot" ticket, the set of numbers will consist of three unique numbers. If the ticket purchaser chooses a "four spot" ticket, the set of numbers will consist of four unique numbers. If the ticket purchaser chooses a "five spot" ticket, the set of numbers will consist of five unique numbers. If the ticket purchaser chooses a "six spot" ticket, the set of numbers will consist of six unique numbers. If the ticket purchaser chooses a "seven spot" ticket, the set of numbers will consist of seven unique numbers. If the ticket purchaser chooses an "eight spot" ticket, the set of numbers will consist of eight unique numbers. If the ticket purchaser chooses a "nine spot" ticket, the set of numbers will consist of nine unique numbers. If the ticket purchaser chooses a "ten spot" ticket, the set of numbers will consist of ten unique numbers. All prizes in game rule number fifty-

five shall be paid out in a lump sum.

(3) At such times as determined by the director, a "Booster" option may be added as an available feature of game rule number fifty-five. If the director determines that a "Booster" option is an available feature of game rule number fifty-five, a ticket purchaser shall have the option to play the "Booster" option as an addition to any "KENO" ticket purchased. If the "Booster" option is chosen by the purchaser, the words "Booster YES" will be printed on the player's ticket. If the "Booster" option is not chosen, the words "Booster NO" will be printed on the player's ticket. The holder of a valid winning ticket for a drawing, with the "Booster" option, will have the regular prize award that is won multiplied by the "Booster" drawn in that respective drawing. The holder of a valid winning ticket for a drawing, with no "Booster" option, will not have the regular prize award that is won multiplied by the "Booster" drawn in that respective drawing.

(4) At such times as determined by the director, drawings will be conducted during which twenty unique numbers shall be selected at random from the set of integers one through eighty inclusive. If the director has determined, pursuant to paragraph (B) of this rule, that a "Booster" option will be an available feature of game rule number fifty-five, during the drawings that are conducted, a "Booster" will be selected from the following integers: one, two, three, four, five and ten. Holders of a valid winning ticket for a given drawing bearing the number of matching integers as set forth in paragraphs (D)(1) to (D)(37) of this rule and excluding the "Booster" option shall be entitled to the regular prize award set forth in accordance with the applicable section of this rule. If the director has determined, pursuant to paragraph (B) of this rule, that a "Booster" option is an available feature of game rule number fifty-five, holders of a valid winning ticket for a given drawing bearing the number of matching integers as set forth in paragraphs (D)(1) to (D)(37) of this rule and including the "Booster" option shall be entitled to the regular prize award set forth in accordance with the applicable paragraph of this rule multiplied by the "Booster" drawn in that respective drawing.

(C) Price of tickets. The price of a ticket issued by the commission in game rule number fifty-five per wager shall be one dollar, two dollars, three dollars, four dollars, five dollars, ten dollars or twenty dollars. The player may purchase up to the number of wagers per ticket, or multiples thereof, as designated by the director if a multi-wager is requested at the player's discretion in accordance with the number of game panels and inclusive drawings. If the director has determined, pursuant to paragraph (B) of this rule, that a "Booster" option is an available feature of game rule number fifty-

five, and if a player chooses the "Booster" option, the cost of the ticket for every one dollar wager will be increased by one dollar for that drawing.

(D) Structure, nature and value of prize awards. Based upon the numbers drawn in each regular drawing for game rule fifty-five, and based upon a one dollar wager, regular prize awards shall be awarded to holders of a valid winning ticket for that drawing as set forth below. The total regular prize award for a valid winning ticket multiplies according to the amount wagered on the ticket. If a valid winning ticket shows a wager of two dollars, three dollars, four dollars, five dollars, ten dollars or twenty dollars per drawing, the regular prize award shown below for a one dollar wager shall multiply according to the wager amount shown on the valid winning ticket for that drawing.
