Numbers, prize values and play symbols appearing on any ticket in game rule number seven hundred sixty-two shall be concealed by an opaque covering, which may be scratched off by the holder of the ticket to reveal the underlying numbers, prize values and play symbols.

(C) Price of tickets. The price of a ticket issued by the commission in game rule number seven hundred sixty-two shall be fifty dollars.

(D) Structure, nature and value of prize awards.

(1) There shall be one type of prize in game rule seven hundred sixty-two, a "prize award."

(2) As used in this rule, "prize award" shall mean one of the following monetary figures, which is the total of all winning prize values appearing on the ticket: one hundred dollars, two hundred fifty dollars, five hundred dollars, one thousand dollars, five thousand dollars, ten thousand dollars, fifty thousand dollars, "Annuity Prize Award" of fifty thousand dollars per year for twenty years, or the "Elected Cash Option Prize Award" of approximately five hundred thousand dollars before taxes in lieu of the "Annuity Prize Award," and an "Annuity Prize Award" of one million dollars per year for the winner's natural life, but not less than twenty years before taxes, or the "Elected Cash Option Prize Award" of approximately ten million dollars before taxes in lieu of the "Annuity Prize Award." Each ticket in game rule number seven hundred sixty-two shall be imprinted in such a way that prize awards from the set listed above may be won.

(E) Number of prize awards. The number of prize awards in any sales cycle of game rule number seven hundred sixty-two will depend upon the number of tickets sold during that cycle. However, distribution and availability for public purchase may be affected by, but is not limited to,

circumstances such as stolen, defective, missing, damaged, promotional, returned or partial reordered tickets. Tickets shall be printed in accordance with this rule using random techniques in order that the following occur:

(1) Combinations winning each prize award are randomly distributed throughout all tickets printed in any given ticket issuance.

(2) For each line in column one of the appendix to this rule, except lines sixty-two and sixty-three, the player having the prize value and multiplier, if any, on that same line in columns three shall win the prize award on that same line in column four. A player having the prize value set forth on lines sixty-two or sixty-three of column three of the appendix to this rule shall win either the "Annuity Prize Award" or the "Elected Cash Option Prize Award." The amounts set forth on lines sixty-two or sixty-three of column four of the appendix to this rule represent the estimated cost annuity investment, at the time of game development, to fund the "Annuity Prize Award." In a pool of twenty-five million nine hundred twenty thousand tickets sold, mathematical reasoning suggests that the number of tickets having the prize value and multiplier, if any, set forth on a given line in column three of the appendix to this rule should be as set forth on that same line in column five.

(F) Tickets sold. Chances of winning and the number of winning tickets are established at the time of printing and will change as prizes are won.

(G) Frequency of prize drawings.

(1) Random imprinting of prize awards on all tickets issued in game rule number seven hundred sixty-two shall be accomplished in a manner, which complies with the commission's rules and procedures.

(2) When a ticket issued in game rule number seven hundred sixty-two is sold or deemed sold in accordance with this rule and the covering material over any of the numbers, prize values and play symbols has been removed, the holder shall be deemed to have drawn the numbers, prize values and play symbols on that ticket which determine whether the holder is entitled to a prize award. All prize awards shall be deemed announced no later than the last day of the sales cycle of game rule number seven hundred sixty-two in which the ticket was sold.

(H) Special claim, entry, receipt and validation procedures. The director shall establish special claim, entry, receipt and validation procedures, including procedures for validation by sales agents of tickets winning prize awards which are to be paid by sales agents in accordance with commission rules. Prize awards shall be claimed within the time limits set forth by commission rules.

(I) Validity of Tickets.

(1) A mechanical error in printing prize awards, symbols, words or other numbers on a ticket shall not automatically invalidate that ticket. To the extent feasible, the director shall establish procedures by which the holder of any ticket on which information is incorrectly printed due to mechanical malfunction may be advised of correct information for the ticket. If it is not technically feasible to recover the information from a mechanically misprinted ticket, the director may declare the ticket void and the holder shall be entitled to a return of the ticket price or a replacement ticket of comparable price.

(2) In addition to, but not in limitation of, all other power and authority conferred on the director by the commission's rules, the director may declare a ticket in game rule number seven hundred sixty-two void if it is stolen, deactivated, not sold or deemed not sold in accordance with commission rules; if it is illegible, mutilated, altered, counterfeit, misregistered, reconstituted, miscut, defective, printed or produced in error or incomplete; if the ticket fails any of the validation tests or procedures established by the director; or if the ticket is obtained in violation of commission rules, including, but not limited to, by way of prize discounting prohibited under rule 3770-3-01 of the administrative code.
