

Ohio Administrative Code Rule 3772-11-08 Opening of gaming tables.

Effective: [May 2, 2022](#)

- (A) Immediately before opening a table for gaming, a table games supervisor or table games manager must unlock the transparent table tray lids in the presence of the dealer assigned to the table.
- (B) The dealer in addition to either the table games supervisor or table games manager must each count the chips by denomination, in accordance with requirements for proving chips, and verify the count to the opening table inventory slip.
- (C) The dealer and the table games supervisor or table games manager must sign and attest to the accuracy of the information recorded on the opener.
- (D) Once signed, the opener must be deposited into the drop box attached to the gaming table.
- (E) Internal controls must include procedures for reconciling instances when counted inventory differs from the amount recorded on the opener and must include the name of the table games supervisor or table games manager preparing a table games variance slip, the signatures required, distribution of each part of the form, and the assurance that one part is deposited in the drop box. Each variance of one hundred dollars or more at any table must be reported immediately by the table games supervisor or table games manager to a commission gaming agent on duty.
