

## Ohio Administrative Code Rule 3772-19-05 Casino surveillance room.

Effective: January 25, 2020

---

(A) The entrance to the casino surveillance room must be located so that it is not readily accessible by either casino employees who work primarily on the gaming floor or the public.

(B) Access to the casino surveillance room must be limited to casino surveillance and IT personnel and the commission. Other persons may only enter the casino surveillance room after obtaining specific authorization by the director of surveillance and by the executive director.

(C) The casino surveillance room must always be staffed by at least two surveillance employees. The minimum casino surveillance room staffing may be increased at the discretion of the executive director.
