

## Ohio Administrative Code Rule 3772-19-07 Required surveillance coverage.

Effective: January 25, 2020

---

(A) Surveillance coverage must include:

- (1) Each table game area with enough clarity to identify patrons and dealers.
- (2) Each table game surface with enough coverage and clarity to simultaneously view the table bank and determine the configuration of wagers, card values, game outcome, and table number.
- (3) Each progressive table game progressive jackpot meter.
- (4) Each table game area used for craps and roulette so dice and roulette wheel outcomes may be clearly viewed.
- (5) An overview of the activities occurring at slot machines and the gaming floor area surrounding and containing slot machines in the casino facility.
- (6) The capability to monitor and record each slot machine, sufficient to simultaneously distinguish the specific location or asset number of the slot machine, the display of the outcome, and credit meter.
- (7) Each slot machine offering a payout of more than two hundred fifty thousand dollars including all patrons and employees at the slot machine and the face of the slot machine with enough clarity to identify the payout line(s) of the machine.
- (8) A dedicated camera at each redemption kiosk, including enough clarity to identify all patrons and employees at the redemption kiosks.
- (9) An overview of activities occurring in each casino cage and vault area, with enough clarity to identify employees within the cage and patrons and employees at the counter areas including an

identification view of the patrons.

(10) The casino cage or vault area in which fills and credits are transacted with a dedicated video camera that provides coverage with enough clarity to identify chip values and the amounts on the fill and credit slips.

(11) Audio and video covering the count room, including all doors to the room, all drop boxes, safes, and counting surfaces, and all count team personnel. A notice must be posted in the count room advising all persons that the area is under video and audio surveillance.

(12) Audio and video of all areas where currency is sorted, stacked, counted, verified or stored during the count process. Coverage of the currency counting machines and currency sorting machines must be clear enough to view the currency input, output and reject areas. All counting surfaces must be transparent so that activity occurring under the table can be observed.

(13) Audio and video of the area of any room in which persons may be detained. A notice must be posted in the detention room advising all persons that the area is under video and audio surveillance.

(14) Activity in all non-gaming areas including all entrances, exits, parking areas, event spaces, and hotels surrounding the casino facility.

(15) Specific cameras must be programmed to turn to the site of activated facility alarms.

(16) Cameras must be programmed to return to a set home location after a set period of inactivity.

(B) The casino operator may submit a request for waiver of the requirements contained in paragraph (A)(1) of this rule to the executive director for any player against player contests conducted outside of any poker room. The request must include a plan for enough coverage of the event.
