

Ohio Administrative Code Rule 3772-20-07 Security detention area.

Effective: July 5, 2022

(A) Security department personnel must have access to at least one security detention area that is designated and used for the detention or questioning of persons by security officers, commission gaming agents or other law enforcement personnel. The executive director shall designate and approve the location and size of any security detention area and any equipment necessary for the room.

(B) The security detention area must be used exclusively for the detention of persons and must be safe, secure, and away from other unauthorized people at the casino facility.

(C) The security detention area shall be monitored by video and audio surveillance in accordance with Chapter 3772. of the Revised Code and any rules adopted thereunder whenever the area is occupied or otherwise in use.

(D) A member of the security department must be present at the security detention area whenever a person is being detained, unless otherwise directed by a commission agent.
