

## Ohio Administrative Code Rule 3772-20-08 Communications system.

Effective: July 5, 2022

---

- (A) Each casino operator must have a communications system that allows all members of the security department to communicate with each other.
  
  - (B) The communications system must provide two-way communications between members of the security department and members of the surveillance department.
  
  - (C) The communications system must be available to and useable by the commission, its gaming agents, or other authorized personnel upon request.
-
