

Ohio Administrative Code Rule 3772-23-01 Involuntary exclusion list.

Effective: October 9, 2021

(A) The "involuntary exclusion list" consists of the names and other identifying or descriptive information of those individuals who meet the criteria under Chapter 3772. of the Revised Code and this rule and have been placed on the list in accordance with sections 3772.031 or 3772.04 of the Revised Code.

(B) An individual on the involuntary exclusion list is prohibited from entering any casino facility in this state.

(C) Each casino operator must exclude any individual on the involuntary exclusion list from the casino facility.

(D) Each casino operator must notify the commission's gaming agents if an individual on the involuntary exclusion list has entered or attempted to enter the casino facility.

(E) This rule does not preclude a casino operator from ejecting any individual from its casino facility for any lawful reason. The casino operator may request that the commission place an ejected individual on the involuntary exclusion list, but the decision to initiate an involuntary exclusion proceeding or to place an individual on the involuntary exclusion list rests solely with the commission.
