

Ohio Administrative Code

Rule 3773-4-03 Additional physical examination requirements.

Effective: August 1, 2019

(A) In addition to all other required medical examinations these additional medicals must be submitted to the athletic commission office within seventy-two hours by a professional boxer or other unarmed combat contestant who:

- (1) Is thirty-five years or older.
- (2) Has boxed in excess of one hundred fifty rounds of professional boxing since being licensed.
- (3) Has been a previously licensed boxer and hasn't participated in the past twenty-four months.

(B) Required medicals:

- (1) MRI brain examination.
- (2) A stress echo cardiogram examination with cardiology clearance.
- (3) A chest x-ray within two years.

(C) The required tests - once completed - will be reviewed by a qualified physician who will present their analysis to the commission. The commission will determine if a professional boxing license will be issued after carefully reviewing all the information.
