

Ohio Administrative Code

Rule 4123-6-01.1 Applicability of medical rules.

Effective: April 1, 2021

Unless specifically stated otherwise, the rules of this chapter governing payment of medical services and supplies shall apply to payments to health care providers in all claims for work related injuries or occupational diseases before the bureau, self-insuring employers, MCOs, QHPs, and the industrial commission.

However, nothing in these rules shall inhibit or diminish the commission's right to establish adjudicatory policy under Chapters 4121., 4123., 4127., and 4131. of the Revised Code, or otherwise prevent the full adjudication of claims properly before the commission or its hearing officers.
