

## Ohio Administrative Code Rule 4123:1-7-04 Passageways.

Effective: January 1, 1981

---

- (A) Passageways shall be sufficiently firm to withstand the travel for which they are intended, and shall be kept clear of obstructions.
- (B) Passageways shall be no less than twenty-four inches wide where no more than two employees manually carry molten metal.
- (C) Passageways shall be no less than five feet wide where more than two employees manually carry molten metal.
- (D) Passageways where molten metal is transported in truck, sulky, or manually operated monorail ladles shall be no less than twenty-four inches wider than the extreme width of such ladles.
- (E) Passageways used for parallel travel of truck ladles or manually operated monorail ladles shall be no less than twice the width required for a one-ladle operation.
-
