

## Ohio Administrative Code Rule 4141-25-07 Qualifying weeks.

Effective: November 12, 2018

---

(A) Remuneration in lieu of notice, vacation pay, holiday pay, dismissal and severance pay, when paid with respect to calendar weeks within the base period, shall be included in determining the number of qualifying weeks.

(B) When necessary for the purposes of qualifying a commission salesman, whose earnings are entirely in the form of commissions, for unemployment benefits the director may allocate the earnings of such individual to the calendar weeks in which such wages were actually earned. Where such allocation cannot be made reasonably in such manner, the director may allocate all commissions paid by an employer in the base period equally to each week of employment with such employer in the base period.
