

Ohio Administrative Code

Rule 4141-35-06 Charges on combined wage credit claims paid by another state.

Effective: July 1, 2015

Benefits paid by another state employment security agency to an individual whose wage credits have been transferred to such other agency by the department shall not be charged to the account of an employer if the employer's account under the same or similar circumstances would not be charged for such benefits for a claim paid by the director under the Ohio law, provided that the noncharging shall not be applicable to an employer which makes payments in lieu of contributions under section 4141.241 or 4141.242 of the Revised Code. When the individual does qualify for benefit rights under the Ohio law but wage credits are required to be transferred to another state under the secretary of labor's "Interstate Arrangement for Combining Employment and Wages," 20 C.F.R. Part 616, then the accounts of employers liable under the Ohio law shall be charged in the manner described in rule 4141-35-05 of the Administrative Code.
